Log Reporting - Bug #7362

GeoIPService usage may allow race conditions

2015-09-17 13:33 - Robert Waltz

Status:	Closed	**Start date:**	2015-09-17
Priority:	Normal	**Due date:**	
Assignee:	Robert Waltz	**% Done:**	100%
Category:	d1_log_aggregation	**Estimated time:**	0.00 hour
Target version:	CCI-2.0.0		
Story Points:			

Description

The GeoIPService sets properties on itself that are then subsequently read in a multithreaded application. A thread may overwrite previously written properties that another concurrent thread may expect to read.

Create a separate class for GeoIPService to set and return properties.
