#### Associated revisions

##### Revision 16347 - 2015-09-17 17:14 - Robert Waltz

refs #7363

Investigating this bug I found the log path was duplicated. (metacat/d1/cn/v1/log/v1/log) This does not fix the bug because independent tests show that there are still no log entries returned when the additional /v1/log is removed.

##### Revision 16366 - 2015-09-18 18:51 - Rob Nahf

fixes #7363: issue with Event conversion - DataONE enums use the xmlValue, which are lowercase versions of the Java Enum name. Made the comparison case insensitive so the comparisons work. This is not a precise solution, but will work for all conversions between v1 and v2 types, where the only Enum being converted (Event) has xmlValues that are lowercases of the Enum constant names. (See Permission type for counter-example).

#### History

**#1 - 2015-09-17 17:06 - Jing Tao**

- Subject changed from *CN.getLogRecords returns results* to *CN.getLogRecords returns 0 result*

**#2 - 2015-09-18 20:11 - Rob Nahf**

- Status changed from *New* to *Closed*

- % Done changed from *0* to *100*

Applied in changeset [d1-python:d1\\_python|r16366](#).

**#3 - 2015-09-21 16:09 - Rob Nahf**

- Related to Bug #7370: *TypeFactory.convertTypeFromType* does not use *xmlValue* comparisons for Enum conversions added

**#4 - 2015-09-21 17:25 - Jing Tao**

- Status changed from *Closed* to *In Progress*

- % Done changed from *100* to *30*

Hi rob, robert's command still gets 0 return.

**#5 - 2015-09-23 17:42 - Jing Tao**

- % Done changed from *30* to *100*

- Status changed from *In Progress* to *Closed*
