<b>Target version:</b>	CCI-2.0.0		
<b>Story Points:</b>			

#### Description

Not really a bug, just an inconvenience. The XML response from the echoIndexedObject diagnostic service returns xml with a version="1.1" prolog.

Example output:

```
<?xml version="1.1" encoding="utf-8"?>
```

## History

### #1 - 2015-10-08 18:10 - Ben Leinfelder

- Status changed from New to In Progress

- % Done changed from 0 to 30

Changed to version=1.0. Will need to make sure indexing still works after this.

### #2 - 2015-10-09 16:42 - Ben Leinfelder

Deployed on cn-dev-2 and was able to get echo response with version=1.0. I have an object waiting to synch/index in order to verify that indexing works with version=1.0 xml as well:

<https://cn-dev-2.test.dataone.org/cn/v2/query/solr/?q=id:brl.2.1>

### #3 - 2015-10-09 22:08 - Ben Leinfelder

- Status changed from In Progress to Closed

- % Done changed from 30 to 100

indexed an EML test object in dev-2 and it worked fine with this change.  
<https://cn-dev-2.test.dataone.org/cn/v2/query/solr?q=id:brl.3.1>
