Description

5 v1_v2_interoperability tests are failing because they are not finding a node to replicate to beyond the CN (accomplished in synchronization). Replication isn't creating the 3rd replica for some reason or another.

(Maybe it's stalled - not ever reaching COMPLETED status?)

http://jenkins-1.dataone.org/jenkins/view/DEV-2%20Integration%20Tests/job/d1_integration_DEV2_v1_v2_interop_functional/lastCompletedBuild/testReport/

Other tests are passing (52 out of 57), but may not have the same dependency on replication...

History

#1 - 2015-11-04 15:00 - Andrei Buium

- Status changed from New to Rejected

The service that creates replica requests had just gone down. No bug.
