

Search UI - Bug #7496

Online Distribution information not displaying

2015-11-19 14:43 - Dave Vieglais

Status:	Closed	Start date:	2015-11-19
Priority:	Immediate	Due date:	
Assignee:	Lauren Walker	% Done:	100%
Category:	MetacatUI	Estimated time:	0.00 hour
Target version:			
Story Points:			

Description

Some member nodes rely on the online distribution information being displayed in search results to facilitate access to data resources not directly accessible through the member node.

It appears that this information is not being presented in the MetacatUI. Example:

https://search.dataone.org/#view/aekos.org.au%2Fcollection%2Fnsfw.gov.au%2Fnsfw_atlas%2Fvis_flora_module%2FV_YOWAKDP3.20150723

vs

[https://cn.dataone.org/onemercury/send/xsltText2?pid=aekos.org.au/collection/nsfw.gov.au/nsfw_atlas/vis_flora_module/V_YOWAKDP3.20150723&fileURL=https://cn.dataone.org/cn/v1/resolve/aekos.org.au%2Fcollection%2Fnsfw.gov.au%2Fnsfw_atlas%2Fvis_flora_module%2FV_YOWAKDP3.20150723&full_datasource=TERN%20Australia&full_queryString=%20*%20AND%20\(%20datasource%20:\(%20urn:node:TERN%20%20\)%20\)%20&ds_id=#top](https://cn.dataone.org/onemercury/send/xsltText2?pid=aekos.org.au/collection/nsfw.gov.au/nsfw_atlas/vis_flora_module/V_YOWAKDP3.20150723&fileURL=https://cn.dataone.org/cn/v1/resolve/aekos.org.au%2Fcollection%2Fnsfw.gov.au%2Fnsfw_atlas%2Fvis_flora_module%2FV_YOWAKDP3.20150723&full_datasource=TERN%20Australia&full_queryString=%20*%20AND%20(%20datasource%20:(%20urn:node:TERN%20%20)%20)%20&ds_id=#top)

The information is present, but is not presented in a way that is easily accessible for a user. The TERN Member Node operators have requested an immediate correction.

History

#1 - 2015-11-19 15:00 - Chris Jones

If I recall correctly, we had decided that the initial roll out of the Search UI wouldn't be using the full stylesheets for EML, FGDC, Dryad, etc., and that this missing information is a result of that. The plan was to allow for full metadata views after the V2 release, and not only will the online distribution info filed be displayed, but entity/attribute information will be much more understandable since we're not rendering the flattened lists from the Solr index, but rather from the science metadata document itself.

#2 - 2015-11-19 17:01 - Lauren Walker

- Status changed from *New* to *In Progress*

- % Done changed from 0 to 30

Chris and I spoke this morning and decided that until the view service is live, we will GET the raw EML doc, find the Online Distribution URL, and add a link in the MetacatUI #view view.

#3 - 2015-11-19 18:52 - Lauren Walker

- Status changed from *In Progress* to *Closed*

- % Done changed from 30 to 100

Updated MetacatUI and installed on search.dataone.org.

Example here: <https://search.dataone.org/#view/www.supersites.net.au/knb/metacat/supersite.311.3/html>
