

CN REST - Task #7501

Story # 7499 (Closed): Support non-DN Subject identifiers

Update CN identity manager implementation to support non-DN Subjects

2015-11-23 18:15 - Ben Leinfelder

Status: Closed	Start date: 2015-11-23
Priority: Normal	Due date:
Assignee:	% Done: 100%
Category:	Estimated time: 0.00 hour
Target version: CCI-2.0.2	
Story Points:	
Description Instead of acting directly on the Subject.value, we need to check if it is a DN and construct the appropriate DN if not already in that form. For retrieval, the Subject.value will be either from the DN or the UID, depending on when the account was created and what type it is.	

History

#1 - 2015-11-24 19:00 - Ben Leinfelder

- Status changed from New to Closed
- % Done changed from 0 to 100
- translation missing: en.field_remaining_hours set to 0.0

Unit tests all passing for account create, update, mapping, and group management. Deployed to cn-sandbox-2 for more testing with the UI.

#2 - 2015-11-25 21:06 - Ben Leinfelder

- Estimated time set to 0.00

also added ability for Groups to be identified with non-DN subjects.
