<b>Description</b>			
I noticed the bulk of TERN content allows any authenticated user full access to the content (read, write, changePermission). This is probably not appropriate for this member node (or any member node) since it allows anyone who can log in to DataONE the ability to delete all TERN content from the federation. <a href="https://cn.dataone.org/cn/v1/meta/www.supersites.net.au/knb/metacat/lloyd.502.10/html">https://cn.dataone.org/cn/v1/meta/www.supersites.net.au/knb/metacat/lloyd.502.10/html</a>
