Target version:	CCI-2.2.0		
Story Points:			

Description

I do not think solrj is used in d1_cn_common, but if it is we need to upgrade it to 5.2.1

SolrJ is used by AuditLogClientSolrImpl. This class is not really used and all the AuditLog/AuditEvent classes and logic may be replaced by the MetricLog/MetricEvent code under org.dataone.cn.log.

Associated revisions

Revision 18047 - 2016-06-07 18:42 - Robert Waltz

refs #7649

Solr in d1_cn_common was still at the 3.4.0 release level, while we are currently running solr 5.2.1.
