

Infrastructure - Task #7653

Story # 7652 (Closed): Enable simple metrics reporting for core services

report on synchronization service activity

2016-02-23 19:29 - Dave Vieglaiss

Status:	Closed	Start date:	2016-02-23
Priority:	Normal	Due date:	
Assignee:	Robert Waltz	% Done:	100%
Category:	performance-scalability	Estimated time:	0.00 hour
Target version:	CCI-2.2.0	Story Points:	
Milestone:	None		
Product Version:	*		
Description			
At a minimum, report on the size of the synchronization backlog.			
Results should be written to a file that is easily parsed with various languages. Two common options include JSON and CSV. A CSV file would be convenient for appending entries if more than a single record is to be kept.			
Contents of the file are to be determined but should include the size of the synchronization backlog, and may include additional per member node information such as the timestamp of the last sync activity and perhaps the number of current tasks for that MN.
