Infrastructure - Bug #7676

incorrect redirect for search being set after CN upgrade

2016-03-16 02:24 - Dave Vieglais

Status:	Closed	**Start date:**	2016-03-16

Target version:	CCI-2.1.3		
Milestone:	None	**Story Points:**	
Product Version:	*		

Description

After the 2.1.1 upgrade, the cn was redirecting to search.test.dataone.org instead of search.dataone.org

This is fixed in trunk with the following. Just need to make sure it gets into 2.1.2 release.

Author: jones
Date: 2016-03-15 19:18:16 -0700 (Tue, 15 Mar 2016)
New Revision: 17802

Modified:
software/cicore/trunk/cn-buildout/dataone-cn-os-core/etc/dataone/d1DebConfig.xml
Log:
Fix production search host URL to use search.dataone.org.

It used to use search.test.dataone.org, which is wrong.

Modified: software/cicore/trunk/cn-buildout/dataone-cn-os-core/etc/dataone/d1DebConfig.xml

While this fix is good in the buildout, we also need to push the new file to https://releases.dataone.org/debian/conf/d1DebConfig.xml, since the postinst script only pulls from that version when determining which environment it is configuring (last time I checked anyway).
