CN REST - Bug #7687

Synchronization unable to change BaseURLs upon updateNodeCapabilities notification

2016-03-23 18:34 - Robert Waltz

Status:	New		**Start date:**	2016-03-23
Priority:	Normal		**Due date:**	
Assignee:	Rob Nahf		**% Done:**	0%
Category:	d1_synchronization		**Estimated time:**	0.00 hour
Target version:				
Story Points:				

Description

Synchronization does not change the baseurl of a membernode after the membernode has called updateNodeCapabilities in order to update its baseurl.

Synchronization keeps a pool of d1clients associated with a membernode Id.

NodeCommObjectListHarvestFactory and NodeCommSyncObjectFactory will each need to be notified if a membernode has changed its baseurl node. Those objects can then purge and re-initialize the d1clients responsible for maintaining communication to the membernode.
