<b>Story Points:</b>			
<b>Description</b>  The ORCID redirect shows an authentication page that is mostly about registering for an ORCID account with a very small link to login with your existing account. You can opt to show the login by default, but this requires adding another parameter to the oauth portal code that starts the process. <a href="https://members.orcid.org/api/customize-oauth-login-screen#show-signin">https://members.orcid.org/api/customize-oauth-login-screen#show-signin</a>  see related ticket: <a href="https://projects.ecoinformatics.org/ecoinfo/issues/7008">https://projects.ecoinformatics.org/ecoinfo/issues/7008</a>
