Sanparks fails during LogAggregation

2016-04-06 16:43 - Robert Waltz

Status:	New	Start date:	2016-04-06
Priority:	Normal	Due date:	
Assignee:	Laura Moyers	% Done:	0%
Category:	Environment.Production	Estimated time:	0.00 hour
Target version:	Maintenance Backlog		
Story Points:			
Description			
Sanparks connection is very unstable:			
org.dataone.service.exceptions.ServiceFailure: class org.dataone.client.exception.ClientSideException: /Remote host closed connection during handshake			
The suggestion has been that Sanparks is only online a few hours during the day.
