Target version:	Story Points:
Milestone: None	
Product Version: *	
Description	
From Inna Kouper: In the new search interface links to SEAD datasets disappeared. We provide it in the tag in FGDC. Before it was visible, but now it's not. For example, users do not know how to access this data without downloading the xml metadata file and looking through it https://search.dataone.org/#view/sead-Bode-Collin-32a51798-22d1-48e9-8b13-05e5243b54e4	
Please do whatever is necessary (modify FGDC xslt?) to ensure that the info in FGDC scimeta displays appropriately in the metadata view in search results.

History

#1 - 2016-05-13 17:08 - Laura Moyers

- Assignee changed from Dave Vieglais to Lauren Walker

EML shows "Online Distribution Info" which renders in the metadata view. Example:

<https://pasta.lternet.edu/package/data/eml/msb-tempbiodev/1111176/0/e123d765f6dde16d4dc7b92d86ae1f48>

SEAD is using FGDC which has the tag. They'd like a similar result in their metadata view as what is rendered for EML.

#2 - 2016-05-16 17:56 - Laura Moyers

- Subject changed from Add data link hyperlink to FGCD rendered view in search UI to Add data link hyperlink to FGDC rendered view in search UI

#3 - 2016-05-17 19:54 - Laura Moyers

- Related to MNDeployment #3521: SEAD Member Node added

#4 - 2016-05-19 19:54 - Ben Leinfelder

- Status changed from New to Closed

- translation missing: en.field_remaining_hours set to 0.0

- Assignee changed from Lauren Walker to Ben Leinfelder

- % Done changed from 0 to 100

This is in the Metacat trunk for release in 2.7.0.
