<b>Description</b>			
If GMN is used as a D1 proxy for objects from a 3rd party web service, a timeout while GMN is setting up the stream to pass through is not handled correctly and causes GMN to return a HTML ServiceFailure page.			
Make timeout values configurable and handle timeouts correctly.			

#### History

##### #1 - 2019-01-22 19:29 - Roger Dahl

- % Done changed from 0 to 100

- Status changed from New to Closed

There is now a setting for this, PROXY\_MODE\_STREAM\_TIMEOUT.

Timeouts are captured and returned as DataONEException with description.
