Description

In DataONE search, upon filter, show only those MNs in the drop down where the MN has content matching the filter.

(UAWG 5/3/16)

History

#1 - 2016-05-04 18:20 - Lauren Walker

- Project changed from Infrastructure to Search UI

- Category set to MetacatUI

- Status changed from New to Rejected

- Assignee changed from Dave Vieglais to Lauren Walker

- translation missing: en.field_remaining_hours set to 0.0

I like this idea, I created a ticket for this feature a while back in the MetacatUI project: https://projects.ecoinformatics.org/ecoinfo/issues/6861. I will try to work it into the 1.12.0 release.

I'll close this ticket as a duplicate, but thank you for reporting.
