Description	
Charitha has requested some content to be deleted and some to be archived for the production instance of SEAD.	
The following entries are to be archived. The reason for archive is that the entries are from the prior installation of the SEAD MN and have been replaced by different content. The entries will remain available from the CN but are to be removed from the index:	
seadv-a75a8b4f-7d35-4c9a-b94a-6e0f8194e6f9 seadv-nonee903e476-9bdd-4332-823a-aabea162acd6 seadv-EssawyBakinam066de0b8-a0c9-4724-913a-9060f82148f1 seadv-EssawyBakinamc8e53366-8745-4009-bb38-786ee49cd6fe seadv-EssawyBakinam70c6e869-5518-4c75-8d09-6a808bb41fb3 seadv-ZhouQuane9e0f510-1599-4311-a6ed-ecf803f3481f	
The following entries were deleted using the cn.delete operation and the CN certificate for authentication. The reason for deletion is that these were test objects that should never of entered the production environment:
