

Infrastructure - Story #8022

d1_log_aggregation has different version of Hazelcast than the rest of CN stack. Hazelcast version very out of date.

2017-02-16 16:15 - Rob Nahf

Status:	New	Start date:	2017-02-15
Priority:	Normal	Due date:	
Assignee:	Rob Nahf	% Done:	0%
Category:	d1_log_aggregation	Estimated time:	0.00 hour
Target version:	Maintenance Backlog		
Story Points:			
Description			
in branches/{component}_v2.3			
hazelcast versions in use: (2) => 2.4.1, 2.6.9			
only d1_log_aggregation used 2.6.9, the rest are at an earlier version.			
Also, Hazelcast is up to version 3.7.5, and has very healthy release history (lots of point releases). Not sure if we should invest time upgrading Hazelcast, or move to different tech. Key consideration is support for multi-site clusters.			

History

#1 - 2017-02-16 16:28 - Rob Nahf

- Subject changed from *d1_log_aggregation has different version of Hazelcast than the rest of CN stack* to *d1_log_aggregation has different version of Hazelcast than the rest of CN stack. Hazelcast version very out of date.*

- Description updated

#2 - 2017-02-17 18:25 - Rob Nahf

Hazelcast 3.5 introduces support for Reliable Topics, so should be the earliest version we consider upgrading to.
