

Infrastructure - Bug #808

no response from CN REST if wrong Accept-Type by requester

2010-09-01 16:12 - Rob Nahf

Status:	Closed	Start date:	2010-10-07
Priority:	Normal	Due date:	
Assignee:	Robert Waltz	% Done:	100%
Category:	d1_cn_service	Estimated time:	0.00 hour
Target version:	Sprint-2010.43	Story Points:	
Milestone:	CCI-0.5		
Product Version:	*		

Description

When performing a call to resolve, if the accept-types declaration is not exactly what returnable (text/xml or application/xml), the call fails with no return. Should probably check other cn CRUD requests, too. A good starting point is the request mappings in proxy.ObjectController.

History

- Status changed from New to In Progress

#2 - 2010-09-22 16:48 - Dave Vieglais

Perhaps use "@DefaultHandler" annotation?

#3 - 2010-09-23 16:40 - Matthew Jones

Also, if there is no Accept header at all, it doesn't return anything. A good solution would be to set text/xml as a default Accept header if one isn't otherwise provided by the calling client.
