<b>Target version:</b>			
<b>Story Points:</b>			
<b>Description</b> As an operations/project manager, I want to know and be able to provide statistics on synchronization status and replication status SO THAT: * I can provide regular reports to stakeholders * I can troubleshoot proactively if problems * I can assess the size of a problem, if it arises. * I can assist <a href="#">DataONE</a> users who might be having trouble accessing data. * CNs can load balance operations on MNs.			

History
