<b>Target version:</b>		<b>Story Points:</b>	
<b>Milestone:</b>	None		
<b>Product Version:</b>	*		
<b>Description</b>			
Increasing demand on the search index is resulting in reduced performance of the Solr index for the web interface at search.dataone.org			
Investigate, document, and deploy a load balancing solution that leverages the mirrored solr instances already in place and if necessary deploy more instances.			
Relevant tools include mod_proxy_balancer and solr cloud.
