<b>Description</b>			
<p>I found there are some duplicated replicas in the system metadata:</p> <p><a href="https://cn.dataone.org/cn/v2/meta/resource_map_urn:uuid:1e97bd1f-76fd-4fd2-bbe7-3fd2b788a3bb">https://cn.dataone.org/cn/v2/meta/resource_map_urn:uuid:1e97bd1f-76fd-4fd2-bbe7-3fd2b788a3bb</a></p> <p>You see, the cn and arctic nodes are duplicated.</p> <p>I ran this query:</p> <p>select distinct guid from smreplicationstatus group by guid, member_node having count(*) &gt;1;</p> <p>and got 2407 rows. This means we have 2407 has the issue.</p>
