Infrastructure - Task #8200

Story # 8199 (Closed): Increase memory allocation to CNs

Increase cn-ucsb-1.dataone.org VM RAM to 64GB

2017-10-24 14:53 - Dave Vieglais

Status:	Closed	**Start date:**	2017-10-24

Target version:			
Milestone:	None	**Story Points:**	
Product Version:	*		

Description

RAM configured for the VM is currently set to 32GB. This should be increased to 64GB.

Changing this configuration requires a restart of the CN and so is best coordinated with other pending updates.

I increased the amount of memory allocated to cn-ucsb-1 from 32GB to 64GB during Jing's scheduled upgrade downtime last night.
