

Infrastructure - Story #8208

Story # 8204 (New): Adjust memory allocation for services running under JVM on CNs

Review and adjust memory allocated to d1-index-task-generator and d1-index-task-processor

2017-10-24 16:09 - Dave Vieglais

Status:	New	Start date:	2017-10-24

Target version:			
Story Points:			
Description			
Configuration for these services is located at:			
/etc/default/d1-index-task-generator			
/etc/default/d1-index-task-processor			
d1-index-task-generator is probably fine, however d1-index-task-processor may benefit from increased allocation especially for processing resource maps.
