Infrastructure - Story #8208

Story #8204 (New): Adjust memory allocation for services running under JVM on CNs

Review and adjust memory allocated to d1-index-task-generator and d1-index-task-processor

2017-10-24 16:09 - Dave Vieglais

Description

Configuration for these services is located at:

/etc/default/d1-index-task-generator /etc/default/d1-index-task-processor

d1-index-task-generator is probably fine, however d1-index-task-processor may benefit from increased allocation especially for processing resource maps.
