

Infrastructure - Bug #8228

Excessive replicas requested by integration test

2017-12-15 02:01 - Dave Vieglaiss

Status:	New	Start date:	2017-12-15
Priority:	Normal	Due date:	
Assignee:	Rob Nahf	% Done:	0%
Category:	d1_integration	Estimated time:	0.00 hour
Target version:	CCI-2.3.10	Story Points:	
Milestone:	None		
Product Version:	*		
Description			
The integration test:			
https://repository.dataone.org/software/cicore/trunk/d1_integration/src/test/java/org/dataone/integration/it/testImplementations/MNUpdateSystemMetadataTestImplementations.java			
requests 42 replicas of test objects which is excessive and causes unnecessary churning of MNs and CNs in the test environments. The change was implemented @15827 and it is not clear why the number 42 was chosen.			
This value should be settable via a configuration file and set to a sensible value (e.g. <= the number of replication targets in an environment).
