

Infrastructure - Bug #8228

Excessive replicas requested by integration test

2017-12-15 02:01 - Dave Vieglaiss

<b>Status:</b>	New	<b>Start date:</b>	2017-12-15
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Rob Nahf	<b>% Done:</b>	0%
<b>Category:</b>	d1_integration	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	CCI-2.3.10	<b>Story Points:</b>	
<b>Milestone:</b>	None		
<b>Product Version:</b>	*		
<b>Description</b>			
The integration test:			
<a href="https://repository.dataone.org/software/cicore/trunk/d1_integration/src/test/java/org/dataone/integration/it/testImplementations/MNUpdateSystemMetadataTestImplementations.java">https://repository.dataone.org/software/cicore/trunk/d1_integration/src/test/java/org/dataone/integration/it/testImplementations/MNUpdateSystemMetadataTestImplementations.java</a>			
requests 42 replicas of test objects which is excessive and causes unnecessary churning of MNs and CNs in the test environments. The change was implemented @15827 and it is not clear why the number 42 was chosen.			
This value should be settable via a configuration file and set to a sensible value (e.g. <= the number of replication targets in an environment).			

History
