Target version:		Story Points:	
Milestone:	None		
Product Version:	*		
Description			
Review the solr search terms and determine how a DataCite version 4 record could be generated from the values available in the solr search index and what changes may be necessary to support such an operation.			
Indicate which DataCite fields can not be populated.			
Indicate which DataONE solr fields are could be used but are not populated correctly or inconsistently.
