Description The Polar Data Catalogue is an online database of metadata and data that describes, indexes and provides access to diverse data sets generated by polar researchers. These records cover a wide range of disciplines from natural sciences and policy, to health and social sciences.			

History

#1 - 2018-04-18 16:33 - Amy Forrester

- per LT meeting 4/13/18

-possibly relevant, but is a data processing center
