Description

The NOAA/ESRL Physical Sciences Division (PSD) conducts weather and climate research to observe and understand Earth's physical environment, and to improve weather and climate predictions on global-to-local scales. PSD archives a wide range of data ranging from gridded climate datasets extending hundreds of years to real-time wind profiler data at a single location. The data or products derived from this data, organized by type, are available to scientists and the general public .

Additional Names:
NOAA, ESRL, PSD, CWD
National Oceanic & Atmospheric Administration, Earth System Research Laboratory, Physical Sciences Division, Climate and Weather Data

History

#1 - 2018-04-18 16:39 - Amy Forrester

- per LT meeting 4/13/18
- NOAA, seems relevant
