Description			
ONEShare appears to be misconfigured or the member node registration needs to be updated.			
The registered baseURL is:			
https://oneshare.unm.edu/knb/d1/mn			
However no expected operations are available using that URL, e.g.			
https://oneshare.unm.edu/knb/d1/mn/v1/node			
instead all return a 404 error.			
Determine if the node document needs to be updated or if there is some other issue with the service.
