IEDA_US Antarctic Program Data Center (Interdisciplinary Earth Data Alliance)

2018-09-27 18:27 - Amy Forrester

Status:	Operational	**Start date:**	2018-09-27
Priority:	Normal	**Due date:**	
Assignee:	Dave Vieglais	**% Done:**	50%
Category:		**Estimated time:**	0.00 hour
Target version:	Deploy by end of Y4Q2		
Latitude:	41.01	**MN_Date_Online:**	2019-03-05
Longitude:	-73.91	**Name:**	IEDA: US Antarctic Program Data Center
MN Description:	The US Antarctic Program Data Center (USAP-DC) is funded by the US National Science Foundation to provide data preservation, publication, and access services for data acquired for the USAP. The Center also works to improve access to the broader network of Antarctic datasets hosted in other disciplinary data repositories and registered with the Antarctic Master Directory of GCMD.	**Logo URL:**	https://github.com/DataONEorg/member-node-info/blob/master/production/graphics/originals/IEDA_USAP.png
Base URL:	http://get.iedadata.org/metadata/iso/mgdl/http://get.iedadata.org/metadata/iso/usap/	**Date Upcoming:**	2018-07-11
NodeIdentifier:	urn:node:IEDA_USAP	**Date Deprecated:**	
MN Tier:	Tier 1	**Information URL:**	http://www.usap-dc.org/
Software stack:	Slender Node (GMN)	**Version:**	

Description

Individual IEDA collections maintain unique deployment tickets to effect associations with UI and CN.

See, MNDeployment #8035 for workflow tasks and information.

MN production review:
From   Suzanne M. Carbotte

> the problem I am seeing is that for USAP-DC when I click on an entry from the DataOne search listing and go to the entry there is no data distribution block with the download links to the actual data. Is this a problem in our schema.org mark up for USAP-DC?

> The second issue is that the dates of the records all show 2018 on the search listing rather than the publication date (which is showing up correctly on the entry pages.

#6 - 2019-03-19 05:09 - Roger Dahl

Comparing the following pages:

https://search.dataone.org/view/http://get.iedadata.org/metadata/iso/601032
https://search.dataone.org/view/http://get.iedadata.org/metadata/iso/318467

318467 has a clearly visible link to the data in a section under Distribution while 601032 does not have that section or link. Instead, 601032 has a less noticeable DOI link in the title.

Comparing the metadata, 318467 does not have a DOI, which is probably why the Distribution section is displayed. If I understand correctly, IEDA would like a more visible download link section also for objects that have a DOI, like 601032.
