Story Points:			
Description ONEMercury is still deployed on CNs and there are a number of links on the DataONE web site that link to the ONEMercury UI. On production systems, the page: https://cn.dataone.org/onemercury/ should redirect to: https://search.dataone.org/ It may be useful to have an informational page that continues the redirect after a few seconds to help inform users of the change.			
Subtasks:			
Task # 8792: Create landing page for redirection from ONEMercury			New
Task # 8793: Replace ONEMercury installation			New
