Target version:	CCI-0.5	Story Points:	
Milestone:	None		
Product Version:	*		
Description			
service-api-java and d1-java both recently changed to include a model for CNode and MNode classes that are separate from the D1Client class. Refactor the R client to use the new model.			

History

#1 - 2010-09-23 02:52 - Matthew Jones

Initial refactoring completed with [r2326](#). R client now uses the MNode class. More refactoring needed to completely shift to using the CNode and MNode classes properly. The current implementation can get and load a data set though, albeit not in a generalized manner.

#2 - 2010-09-24 17:34 - Matthew Jones

New class structure is being used now. Fixed.
