History

#1 - 2010-10-06 12:42 - Dave Vieglais

Not sure this can be done. Redmine uses the email address associated with the account (populated from LDAP) to send notifications.

Notification level can be set from the account properties page.

#2 - 2010-10-06 19:56 - Dave Vieglais

- Status changed from New to In Progress

- Target version deleted (General Operations)

There is a plugin that will send notification of new issues to a single email address. This might be useful for at least notifying of new tasks / stories.

See http://github.com/chantra/redmine_newissuealerts

#3 - 2010-10-06 21:46 - Dave Vieglais

- Status changed from In Progress to Closed
