

Infrastructure - Task #982

Story # 981 (Closed): Persist Nodelist in Metacat

NodeList must have a known and stable identifier

2010-10-07 20:25 - Robert Waltz

Status:	Closed	Start date:	2010-10-07
Priority:	Normal	Due date:	
Assignee:	Robert Waltz	% Done:	100%
Category:	d1_cn_service	Estimated time:	0.00 hour
Target version:	Sprint-2011.10-Block.2	Story Points:	
Milestone:	CCI-0.5		
Product Version:	*		
Description			
determine what the nodelist will be named in metacat, create list on metacat note the name for all to know			

History

#1 - 2010-12-03 18:33 - Robert Waltz

from todays sprint, it sounded like we said d1_nodelist.xml or dataone_nodelist.xml (take your pick). I suppose we could even drop the .xml.

Let's go with "dataone.nodelist"

#3 - 2011-03-16 15:42 - Robert Waltz

- Status changed from New to Closed

Metacat does not allow this feature. each update to node list will create a new object that is a obsoletes a previous version of the nodelist
